NOW, THEREFORE, the Declarant, for itself, and its successors and assigns, does hereby covenant and agree with all persons, firms and corporations who or which may acquire any interest in or title to any of the property hereinafter described, as an inducement to said persons, firms and corporations to purchase a part of the said property, that the property, and each and every lot, described below, is hereby made subject to the following restrictive covenants as to the development and improvement and use thereof, which covenants shall run with the said land and with each and every lot by whomsoever owned. The real property to which these restrictive covenants shall be applicable being described as follows:

Being all of Northfield Subdivision, Lots 1 through Lot 39, according to a survey entitled "Final Plat, Northfield Subdivision," by Streamline Land Surveying, Inc., dated November 19, 2004, and recorded in Plat Book 68, Page 65, Johnston County Register of Deeds, reference to which is hereby made as if fully set forth herein..

ARTICLE 1

PURPOSE. The real property hereinbefore described is subjected to the protective covenants and restrictions hereby declared to insure the best use and the most appropriate development and improvement of each lot thereof; to protect the owners of lots against such improper use of surrounding lots as will depreciate the value of their property; to preserve, so far as practicable, the natural beauty of said property; to guard against the erection thereon of poorly designed or proportioned structures, and structures built of improper or unsuitable materials; to obtain harmonious color schemes; to insure the highest and best development of said property; to encourage and secure the erection of attractive homes thereon, which appropriate locations thereof on lots; to prevent haphazard and inharmonious improvement of lots; to secure and maintain proper setbacks from streets and adequate free spaces between structures, and in general to provide adequately for a high type and quality of improvement in said property, and thereby to enhance the values of investments made by purchasers of lots therein. The term "single family" as used herein means persons who are related by blood, adoption, or marriage or

living together by not more than two unrelated adults. Nothing in this document shall be deemed to prohibit the conversion of a lot to a street.

ARTICLE 2

DEFINITIONS.

1. Declarant shall mean and refer to Crossroads Development Corporation, its successors and assigns if such successors or assigns should acquire more than one undeveloped lot from the Declarant for the purpose of development.

ARTICLE 3

ARCHITECTURAL COMMITTEE. An Architectural Committee shall be composed of two persons designated and appointed by the Declarant or such person, firm or corporation to whom Declarant has expressly assigned this right; or, at such time as the Declarant no longer owns any lots in the subdivision a meeting may be called by the residents of the subdivision. At such meeting, the owners of each lot will have one vote. A quorum consisting of representation by at least 50 percent of the lot owners shall be required. At such meeting, a majority vote of the lot owners represented will elect the Architectural Committee. The initial Architectural Committee shall be comprised of the Officers of Crossroads Development Corporation. The restrictions on any lot in the subdivision may be removed or waived only by the written consent, duly acknowledged and recorded, of the Declarant or its successors or of the Architectural Committee.

ARTICLE 4

LAND USE AND BUILDING TYPE. No lot shall be used except for single family residential purposes. No building or structure shall be erected, altered, placed or permitted to remain on any lot other than one, built on site, detached single family dwelling not to exceed three (3) stories in height, a private garage for not more than three (3) cars, and (with the approval of the Architectural Committee) an accessory building or structure for storage or other appropriate residential uses, not in excess of 450 square feet in area. No mobile or modular homes are permitted.

ARTICLE 5

BUILDING DESIGN. No building (including an accessory building or structure and a garage) shall be erected, placed or altered on any premises in said development until the building plans, specifications and plot showing the location of every such building, have been approved in writing as to conformity and harmony of external design with existing structures in the development, including without limitation, proposed exterior materials and colors, and as to location of the building with respect to topography and finished ground elevation by the Architectural Committee. In the event the Committee fails to approve or disapprove the design or location within thirty (30) days after the plans and specifications have been submitted to it, or, in any event, if no suit to enjoin the erection of any such building or the making of such alterations has been commenced prior to the completion thereof, such approval will not be required and this covenant will be deemed to have been fully complied with. In the event that the Architectural Committee disapproves of the design or location of a building and if in such event the owner refuses to revise such design or change such location in order that it will be approved by the Architectural Committee, the Declarant will purchase such owner's lot within thirty (30) days after demand is made on the Declarant by such owner in writing. The purchase price shall be the same price as the price which the Declarant received upon the sale of the lot. Members of the Committee shall not be entitled to any compensation for services performed pursuant to this covenant.

Mobile homes, modular homes, log homes, earthen or underground home, shell homes, pre-cut, pre-assemble and packaged homes or similar type buildings are prohibited, except that the Declarant, its successors or assigns, may in its complete discretion, approve a dwelling or appurtenant structure with some of its components being pre-cut or pre-assembled.

In the event of a total loss of the structure, the owner may elect not to replace it; however, the site shall be cleared of all debris, graded level with the contour of the land and grassed and strawed.

All telephone, electrical and other utility lines and connections between the main utility lines and the dwelling or other structures shall be located underground so as not to be visible.

ARTICLE 6

No building shall be located nearer than 10 feet to an interior lot line except that a 7.5 foot side yard may be permitted for a garage or other permitted accessory building located 100 feet or more from the minimum building setback line. For the purpose of this covenant, eaves and steps shall not be considered a part of the building, provided that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot. When any permitted detached accessory building is located at least 125 feet from the front property line, if the lot abuts two or more streets, then it shall be located at least 35 feet from the right-of-way line of the side street. The Declarant reserves the right to waive minor violations (up to 10 percent) of the setback and side line requirements set forth in this Article. Nothing herein shall mean that the Architectural Committee cannot withhold its approval of the location of a building regardless of the fact that such building meets the requirements of this paragraph.

2. Set backs are as stated above unless the placement of ^{the J.V.D.} ~~the~~ residential structure would be better suited by adhering to the set back as governed by Johnston County. In this instance, set backs as provided by the county shall govern.

Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat and over the rear 10 feet of each lot unless shown in excess of such distances on recorded plat, in which case the plat shall control. Within these easements, no structures, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities and drainage facilities, or which may change the direction of flow of drainage channels in the easements, or which may obstruct or retard the flow of water through drainage channels in the easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible. The Declarant reserves a permanent and construction easement extending fifteen (15) foot from the right-of-way line perpendicularly into each lot along each street or roadway as an easement for the maintenance of the existing street and road systems and the supporting cuts, ditches or slopes therefore.

Within such easements or common area, no structure, planting or other material shall be placed or permitted to remain which will interfere with the designated use of such area. Section 4: Additional Covenants and Easements. The Declarant may unilaterally subject any portion of the property submitted to this Declaration initially or by Supplemental Declaration to additional covenants and easements, including covenants obligating the Homeowners to maintain and insure such property on behalf of the Owners and obligating such Owners to pay the costs incurred by the Homeowners.
